GHT - V150

5.1 Home Entertainment Speaker System

GHT-V150 Champagne color added

In addition to its original blue/black system, Genius is now offering a new champagne finish to its 5.1 home entertainment speaker system, GHT-V150. This finish will enhance your surroundings. Mass production will be in March.

Give your surroundings some excitement

Enjoy a home theater experience or exciting games with the Genius six-piece GHT-V150 5.1 Surround Sound System! The speakers are powered with amplifiers that supply 150 watts of total power output. The solid wood subwoofer cabinet with a built-in 6.5" long-throw driver delivers deep bass powerfully; incorporates the most dedicated 2-way center and satellite speakers, which contain two special designed drivers to deliver clear sound. Use the matrix source and source selector switch to create breathing 5.1 surround sound from stereo or 5.1 sound sources. In addition, the adjustable satellite stands let you swivel the speakers in the direction you want.

The Genius GHT-V150 is compatible with standalone DVD players and PC's, great for video game and stereo devices, and MP3 or CD players as well. A remote control is available for volume control and choice of audio inputs. With this fashionable six-piece speaker system design and cordless remote control, create your own stylish home entertainment life with the GHT-V150.

Features:
